8/25/2014	9/25/2014	32,465,000	30,917,200	6.10
7/25/2014	8/25/2014	39,748,000	36,530,700	2.15
6/16/2014	7/25/2014	32,900,000	29,810,500	1.35

- No rain fall recorded from July 4th to August 11th
- The Directors have confirmed that many other Water Districts in the area have confirmed high water usage.
- Since reading the meters on July 24th, the District has rechecked approximately 100 meters. The recheck confirmed that all meter readings were correct.
- The amount of water billed and produced during this period of dry weather increase by approximately 15,000,000 gallons the first month, and approximately 18,000,000 gallons the second month.
- The increase in water billed to customers coincides with the amount of increased water produced at the water plants.
